

Scientific Council

The Scientific Council (SC) is a collective body of the ABI with a four-year mandate. The current SC, involving 13 habilitated scientists, was elected at a meeting of the General Assembly of Scientists at the ABI. The SC defines the scientific policy of the ABI and adopts the research and educational plans of the Institute as well as the reports for their implementation. The SC takes decisions to open competitions for academic positions, performs elections and makes proposals for the dismissal of academic staff. The SC appoints and deducts PhD students, approves PhD student plans, thesis titles, etc. Meetings of the SC are public except where the law provides otherwise.
